2018-19

Education to Excel

From the Principal's Desk

- ✚ It always seems impossible until its done.
- ✚ Positivity, confidence and persistence are key in life, so never give up on yourself.
- ✚ Stay true to yourself, yet always, open to learning.
- ✚ There is no substitute to hard work.
- ✚ Never give up & be confident in what you do.
- ✚ Life is a race which is all about winning, but winning is not the only end point. In life, we should understand, no one has made great achievements in a day. As students we should take-up failures & challenges to become successful one day. When you face failures, do not give up, but keep trying till you meet success in life
- ✚ We should wait with patience because hard work pays. So never give up until we reach what we are focusing.

-Dr.Prashant Bukkawar

From the Editor's Desk

- ✚ In life, what matters is our attitude. If we give up easily, we cannot taste the flavors of success. It takes years for a tree to give a tasty fruit. Similarly it will take time to make success, sometimes even years. The path of success can be rough and hard but if we keep going without any lack of confidence the day to success is not really far away.
- ✚ If we want to win in life we should not stop till we get what we are looking for. The only thing that helps us to make an achievement is self confidence. If we believe we can make wonders, we will. So we should believe in ourselves before expecting others to believe us or support us.
- ✚ When life gives us a thousand reasons to quit, trying gives you one reason to try one more time. Never give up, till you become a great achiever.

Remember:

"Failures are the stepping stones to success."

-Ms.Leah
