

### *From the Principal's Desk*

*"Success is no accident. It is hard work, perseverance, learning, studying, sacrifice and most of all, love of what you are doing or learning to do."*

*Success is the result of hard work, firm determination and dedication.*

*Sometimes, the attempt proves to be a failure. But failure is a natural phenomenon. It carries a treasure of invaluable experience. Success and failure are two facets of the same coin.*

*Every failure is a stepping stone to success. Failure teaches us a lot. It reveals our weakness that must be overcome. It informs us about the problem areas in our work.*

*It guides and inspires us to put in more effort. It reveals the weakness of our planning. It gives us strength to act more decisively. We come to know about our limitations. It gives us a guideline for future course of action. Failure, thus, prepares person to go for the next endeavour with better chance of success.*

*Life is full of twists and turns. Everyone has to struggle here in this world to overcome every obstacle in the way to success.*

*For this hard work is necessary. Without working hard and just by sitting idle it will be hard for one to get success.*

*To be a better person in life and to get success you have to work hard, the result of hard work is always fruitful, so you have to work hard.*

*Hard work makes us better prepared to face adverse situations. Hard work helps an athlete to persevere in a race and win it; it helps an average student to become extraordinary, it helps to transform destinies.*

**Dr. PRASHANT BUKKAWAR**

### *From the Editor's Desk*

*Fortunes favors the brave. And the brave is one who gets ahead, overcomes his failures and achieves his goal.*

*We should keep our priorities before us, concentrate on them fully, do the consistent efforts and then we will see that everything is falling on its right place.*

*The brave have the confidence to welcome challenges in life. Failures should not result in pessimism. Pessimism acts as a stumbling block in one's way to success. The pessimist sees difficulties in every opportunity. The optimist sees opportunities in every difficulty. Failures, thus, act as a ray of hope. In cases of failures, one should not be scared of the comments and criticism of the people.*

*Behind every human effort lies a hope for success. So keen is his desire for success that he fails to see any value in failures. But one must remember that failures are the pillars of success. They provide us an opportunity to realize our shortcomings so that we can constantly strive to improve ourselves, because, "Struggle is the key to Success".*

*To be a Successful Student*

- ❖ *Plan your own study time.*
- ❖ *Divide your work into small units which will make studying more fun*
- ❖ *Get a good night's sleep which will sharpen your memory and help you to focus better.*
- ❖ *Note making will help you during exam time.*
- ❖ *Do group studies as it will help you to remember things easily*

**Ms. LEAH**

## SCHOOL TOPPERS IN AISSE MARCH 2016 ( GRADE X )
